Since 1965
Excellence By Design™

Introducing the
pipette's best new
friend,

The **Lab-Top Workstation**™

ABOUT THE LAB-TOP WORKSTATION™

Exclusively designed to be used with a hand held multi-channel pipette and 96 well trays or slides.

Accommodates most popular 8 or 12 channel pipettes.

Cost Effective.

Easy to Use.

Enables a more efficient and accurate way of liquid dispensing.

THE ADVANTAGE'S OF THE LAB-TOP WORKSTATION™

-ACCURATE PIPETTING-

Workstation allows accurate placement of pipette tips over wells, and advances accurately from row to row.

-REDUCES ERROR-

Reduces the possibility of cross sampling.

-USER FRIENDLY-

Easy to operate.

THE BENEFITS OF THE LAB-TOP WORKSTATION™

The Lab-Top Workstation is a great educational training tool as well as a great tool for production in a laboratory setting. Most of all the Lab-Top Workstation creates an accurate way of manual liquid dispensing for your critical and expensive testing. The Lab-Top Workstation creates an organized working environment for the user. The Lab-Top Workstation is a good tool to effectively train new users. The Lab-Top's simple operation is easy to learn. The Lab-Top Workstation has two controls giving the user a range of different ways to operate the station, allowing the user to find what is most comfortable for them. Users whether left handed or right handed will be able to use the Lab-Top Workstation comfortably and efficiently.

-Autoclaveable-

Professional-----	\$ 850
Multiple Units-----	\$ 550
